

COPAS Loading and Unloading Rates

Effective Date	Rate Per Hundred Weight
April 1, 2004	\$ 0.49
April 1, 2005	0.51
April 1, 2006	0.54
April 1, 2007	0.57
April 1, 2008	0.61
April 1, 2009	0.66
April 1, 2010	0.67
April 1, 2011	0.67

Loading and unloading costs are an element of material pricing. Certain COPAS Model Form Accounting Procedures state the Operator may use specified loading and unloading rates that are adjusted by the same percentage used to adjust overhead rates (rounded to the nearest cent). The resulting rate is effective April 1 of the applicable year. For more information, refer to COPAS MFI-38 (available from Online Store and Publications).
